After exploring building exteriors and styles of architecture in our last Day School we are now turning our attention to the style and contents inside Victorian and Edwardian homes. This will include a consideration of the way that building design influenced domestic life.

Our Speakers will be **Kit Wedd**, author of *The Victorian House*, **Mary Greensted**, previous director of the Cheltenham Art Gallery and well known author on various aspects of Arts and Crafts houses, and **Jim Cheshire**, an academic from Lincoln with a special interest and expertise in the restoration and recreation of domestic interiors.

The cost is **£30** to include tea/ coffee at registration, and a buffet lunch also with tea/coffee. Coffee will be available from 9.45 a.m.
